

Hello,

I am building Draft Horse Town at this years Calgary Stampede. This will be an area dedicated to the history of the draft horse in western Canada. We have some great partners in this venture including the military museum, road builders, and the Remington Carriage center.

I need some teamster help. I am looking for 5 (3 teams, 1 4 abreast) teams per day for each of 10 days, to pull and demonstrate the equipment that is on display. Yes we are working on asphalt, but we are only demonstrating so everything at a walk.

These demo's are scheduled and can of course be practised. There is stabling on site, a place for your camper or trailer with shuttle service to/from the grounds and about 40,000+ people per day to show your horses to.

I know all 10 days is a long haul, so I am hoping to have people take shifts, minimum of 3 days.

Teams do not need to be papered or of pure breed, but **MUST** be draft animals and well broke.

Join me for a unique Stampede Draft Horse Town experience.

Dale Befus

Draft Horse Town
